## MASIFUNDE ISIXHOSA

As part of our Xhosa program, we will continue to send you a parent guide. We encourage you to take this opportunity to discover Xhosa with your child and embark on an exciting and rewarding adventure!

Included in this pamphlet is a list of the vocabulary and basic knowledge that we expect each child to know by the end of the term. All of the work will be covered during class at school, but our hope is that by providing parents with an idea of what is being learnt, that this will encourage opportunities to reinforce Xhosa learning at home.

We have also added a pronunciation guide that should aid you with saying some of the words. This guide is by no means all encompassing, but will help with basic pronunciation. The tips for helping your child will provide some ideas of how to include Xhosa in your day-to-day lives.

Ube nethamsanqa!  
(Good luck!)
